

SCHOOL ICT REVIEW (PRIMARY/SECONDARY/TRUST)

We make technology work for you

Does your school(s) require a focussed ICT health check?

By engaging one of our experienced and expert consultants, you can:

- Understand exactly the quantity and quality of what ICT you have.
- Access a 3 or 5 Year costed Strategy.
- Save money in your future ICT investments.
- Realise your vision.

ICT Review Package

The ICT Review Package comprises of one or more of the following reviews.
You can choose any of the following:

1. **Technical Review** – of the infrastructure as well as hardware and software provision, an analysis of its 'health', with development recommendations. It also includes a review of your ICT Support.
2. **Education Review** – of the existing use of ICT for Teaching and Learning, especially its use in the classroom, including the Computing Curriculum, with key education findings and recommendations.
3. **Financial Review** – including an analysis of all the costs of ICT within the school so that it is clear what and when items should be replaced / refreshed, when and how to save money.
4. **Online Safety Review** – to identify and share good practice.

All findings and recommendations will be recorded in an ICT Report and 3 / 5 year Development Plan.

What you get

- A pre visit conversation to establish needs and obtain key information.
- A school visit to engage with staff, observe, review and record.
- A detailed Report, with key findings, recommendations and a 3 or 5 year Development Plan.
- Supporting Documentation – Policies & Procedures / Resources Sheet, etc.
- Personal feedback to discuss findings and determine priorities and next steps.

SCHOOL ICT REVIEW (PRIMARY/SECONDARY/TRUST)

We make technology work for you

How much it costs

Each review has a cost of 2 consultancy days and you can choose 1, 2, 3 or 4 reviews. If you are a small primary school each review costs only 1 day consultancy.

To discuss your exact requirements contact:

What schools say about the ICT Review

Susy Stone (Headteacher) – Akiva Primary School, Finchley:

“We sought Jeff's advice at a time when our computing had fallen significantly behind the demands of the new curriculum and the needs of a dynamic staff team. His knowledge and specialist expertise in technology for schools has put us firmly back on track towards a realistically costed and creative future for computing in our school.”

Carolyn Robson (Trust CEO/Executive Principal) – Rushey Mead Education Trust:

“I would like to thank you for your current and future work for Rushey Mead Educational Trust and its individual academies. Your clarity and strategic thinking, accompanied by practical solutions and expertise are proving invaluable to the Trust. Conducting thorough ICT Reviews (Due Diligence exercises) for each of our schools joining the Trust has helped us to have a clear audit with key recommendations in the areas of Education, Technology and Finance. This then informs our short and long term planning and priorities for each school on an individual basis but also across the Trust as a whole and linking carefully to its vision.”

Catherine McMahon (Headteacher) – Sacred Heart Catholic Primary School, Whetstone:

“His insightfulness has left us with a clear statement of where we are and the means by which we can get to where we want to be. Not only has he told us what we need to do, he has also given us the tools we need; and has continued to brief us about new developments.”
